What is Leading SAFe®

Scrum is currently the most widely used Agile approach to software development. Scrum focuses primarily on the team process. But what if you want to scale the Agile concept for program and portfolio level? The Scaled Agile Framework®, SAFe®, provides an answer.

The framework, [available here](#), examines the roles, teams, activities and artifacts that you need when scaling up Agile. And according to the well-respected State of Agile Report, SAFe is by far the most used Agile scaling framework. This training is based on the most recent version of the SAFe framework.

The Leading SAFe training was originally set up for management and leadership of organizations that want to start with SAFe. Because the training touches all parts of SAFe, this training is very suitable for getting

acquainted with SAFe.

Upon request, for groups, we also offer these specialized SAFe trainings with certification:

- SAFe for Teams
- SAFe Scrum Master
- SAFe Advanced Scrum Master
- SAFe Product Owner / Product Manager
- SAFe DevOps

Read more about Scaled Agile Framework on this page: <https://academy.capgemini.nl/en/topic/safe>

Who should attend Leading SAFe®

This training is focused on clients, managers, consultants, Lean- Agile Agile leaders and change agents. The SAFe Agilist exam is included at the end of the training. Before entering into the training course, you need to have prior knowledge around Agile in general (including the 12 principles behind the Agile Manifesto), Scrum and concepts like relative estimating in story points and planning poker. If you do not have this knowledge yet, you better first attend our Scrum Kickstart, Scrum Master or Scrum Product Owner training.

You can take the exam online in your own time but you have to complete it within 30 days after training. The training includes one year of membership of the SAFe Community Platform. Here you will find an electronic version of the training materials and a practice exam. Furthermore, you will find videos, a knowledge base and communities of practice.

The cost of the exam is included in the training price.
