

Scrum Master (NL)

Blended learning

Training code	CGASCRSMME
Spoken Language	Dutch
Language Materials	English
Dayparts	2
Price	€1.100,00 excl. VAT No extra costs.

What is Scrum Master

Scrum is the most popular framework for Agile work. Despite the simplicity of the Scrum framework, its practical application can be challenging. A key success factor of Scrum is an effective Scrum Master. In this training, we use the Scrum Guide to learn Scrum, focusing on the Scrum Master role. We will explore team building, motivation, and scaling Scrum. We will also provide practical tools and discuss common real-life situations to help you become a successful Scrum Master. Before the course, you follow our e-learning Scrum Basics and study the Scrum Guide. After completing the training, you can take the online worldwide accredited Professional Scrum Master level I (PSM I) assessment of Scrum.org at your convenience. We provide sample questions to practice for this assessment at the end of the training. This is our own Scrum Master training, which is especially useful if you already have some (theoretical) knowledge of Scrum. We also offer the more extensive two-day official Professional Scrum Master training from Scrum.org.

Who should attend Scrum Master

- Scrum Masters: Learn to effectively create a high-performing Scrum Team.
- Project Managers: Gain a deeper understanding of Agile methodologies and improve your project management skills.
- Product Owners: Learn how to effectively collaborate with your Scrum team and stakeholders.
- Developers: Understand the Scrum framework and how you can contribute as a team member.
- Team Leaders: Learn how to guide your team through the Scrum process and motivate them towards success.

Prerequisites

No prior knowledge of Scrum is required.

Objectives

At the end of the training you will be able to:

- Understand the role of a Scrum Master and its importance in a Scrum Team.
- Prepare for the Professional Scrum Master level I (PSM I) exam.
