

Scrum Master (NL)

Blended learning

Training code	CGASCRSMME
Spoken Language	Dutch
Language Materials	English
Dayparts	2
Price	€1.100,00 excl. VAT No extra costs.

What is Scrum Master

Scrum is the most widely used framework for an Agile way of working. In contrast to the simplicity of the Scrum framework itself, applying it in practice is not easy. One of the success factors of Scrum is an effective Scrum Master.

In this training we will use the Scrum Guide to learn Scrum, focusing on the role of Scrum Master. We also examine issues such as team building, motivation and scaling Scrum. In addition, we will provide practical tools and discuss common real-life situations that will help you become a successful Scrum Master.

Prior to the course, you follow our e-learning Scrum Basics, study the Scrum Guide and test your knowledge using the Scrum Quiz.

After completion of the training you can, at a time and place you choose, take the online worldwide accredited Professional Scrum Master level I (PSM I) assessment of Scrum.org. We will provide sample questions to practice for this assessment at the end of the training.

This is our own Scrum Master training, which is especially useful if you already have some (theoretical) knowledge of Scrum. We also offer the more extensive two-day official Professional Scrum Master training from Scrum.org.

Who should attend Scrum Master

The Scrum Master training is for anyone who aspires to work in the role of Scrum Master.

We assume that you have knowledge of the Scrum framework, for example because you have been working in a Scrum Team.

Prior to the course, study the Scrum Guide carefully! You should test yourself with the Scrum Open Assessment to assess whether you have sufficient knowledge for the Scrum Master training.

The training material and the assessment are in English. The cost of the exam is included in the cost of the training.

This training and the associated PSM I assessment have a major overlap with the Scrum Product Owner

Training and the associated PSPO I assessment.

Prerequisites

No entry level applies to this training.

Objectives

Learn what the role of Scrum Master is and prepare for the exam.
