What is BABOK® Practitioner

The rapid development of the field of Business Analysis and the lack of a widely recognized structure and focused execution of BA activities, has led to confusion among many organizations and individuals. IIBA has grown to be the organization for the development of the 'Business Analysis Body of Knowledge' (BABOK®) standard for the profession of Business Analysis. BABOK® describes a generally accepted methodology. This course is based on the latest version, version 3.

BABOK® helps organizations and individuals to conduct business analysis. In addition you can use the BABOK® to assess training needs and plan for career development. The CBAP & CCBA certifications have become the "de facto" international standards for the professionalism of Business Analysts. This training provides you the skills you need in the use of these internationally recognized Business Analysis standards. By the end of the course you will be able:

- Perform Business Analyse according to the Knowledge Areas and Tasks and Techniques, as they are described in the Business Analysis Body of Knowledge®
- Adapt and use BABOK® in specific situations
- Use various techniques described in the BABOK® Guide and combine them in a Business Analyse example
