What is Awareness Cloud Computing

Slowly but surely the position of Cloud Computing is changing from hype to commodity. But what exactly is Cloud Computing? When is it really cloud computing and when is the term misused for old wine in new bottles? After training, you will know the answer.

We will begin with the advantages and disadvantages of the various cloud strategies and examine the business opportunities and risks. We will look at this from both the consumer and from the supplier angle. We will also investigate the changes in organizations with respect to decision making regarding ICT costs and the role of cloud computing.

After completing the training, you will know:

- What Cloud is
- What are the possibilities and risks of using Cloud
- What is required to use Cloud in your own organization

Who is Awareness Cloud Computing for

This training is designed for people who are interested in Cloud solutions. You work for example in the role as:

- IT Consultant
- IT specialist
- Security specialist
- Infrastructure specialist
- Service specialist
- System specialist
- Test specialist
- Etc.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals.

Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.

Capgemini Academy. We transform IT professionals
