

Agile Project Management Practitioner® training including exam voucher

Group English

Training code	CGAAPRMECE
Spoken Language	English
Language Materials	English
Dayparts	4
Price	€1.300,00 excl. VAT No extra costs.

What is Agile Project Management (AgilePM®) Practitioner training including exam voucher

Agile projects also have to be managed too. A good approach for this is Agile Project Management (Agile PM) based on DSDM. Agile Project Management is ideal for managing projects which are composed of multiple Scrum teams.

This training is the logical continuation of the Agile Project Management Foundation® training and focuses on more detail behind the methodology. It is specifically designed for project managers.

Some of the topics: the role of the project in relation to other roles, processes and products; MoSCoW prioritization and time boxing; requirements, estimating, measuring, quality and risk. Agile Project Management is described in the Agile Project Management Handbook (version 2, we assume that you have this book in your possession from the Agile Project Management Foundation® course).

This training includes a voucher for the official, internationally recognized exam and one online-resit in case you do not pass the exam the first time.

The costs of the exam voucher are included in the price of the training. Shortly after the start of the training you will receive a voucher with which you can reserve your exam.

You can make a reservation for one of our exam days or book an online exam at a time and place of your choice. Bear in mind that you must plan your exam at least 5 working days in advance.

Who should attend the Agile Project Management (AgilePM®) Practitioner training including exam voucher

The training Agile Project Management Practitioner is primarily intended for project managers who implement projects in an agile environment.

The training will prepare you for the exam APMG Agile Project Management Practitioner. We assume that you have followed the Agile Project Management Foundation course, prior to this training.

Objectives

After following the training Agile Project Management Practitioner you will be able to manage projects in an Agile environment according to the DSDM Agile Project Management method. The Agile Project Management Practitioner training will prepare you for the Agile Project Management Practitioner APMG exam.
