What is Management of Risk (M_o_R®) Foundation

Every organization wants to use as many opportunities as possible. Implement effective projects, programs and jobs. The greatest possible result comes out of the investment you are doing.

Within your organization various ways that the opportunities and threats may arise are being examined. we can place opportunities and threats together under the heading 'Risk'. As we look from different perspectives at the risks, you can say that your risk management is not optimal.

Management of Risk describes an integrated approach to risk management for the entire organization. This allows you to involve everyone in risk management within your organization and you take care of a structure that encourages success.

In the course of Risk Management Foundation, we will teach you the basics for successful risk management, and we prepare you for the M_o_R Foundation exam.
