### What is Management of Risk (M\_o\_R®) Foundation

Every organization aims to seize as many opportunities as possible, implementing effective projects, programs, and operations to maximize returns on investment. Within your organization, various opportunities and threats are examined under the umbrella of 'Risk'. By viewing risks from different perspectives, you can identify areas where your risk management may not be optimal. Management of Risk (M\_o\_R®) describes an integrated approach to risk management for the entire organization, involving everyone and creating a structure that encourages success. In the Risk Management Foundation course, we teach you the basics for successful risk management and prepare you for the M\_o\_R Foundation exam.

### Who should attend Management of Risk (M\_o\_R®) Foundation

- Project Managers: Ensure projects are delivered on time, within scope, and on budget by managing risks effectively.
- Program Managers: Oversee multiple projects, ensuring alignment with organizational goals and managing risks across the program.
- Risk Managers: Develop and implement risk management strategies to protect the organization from potential threats.
- Business Analysts: Identify and analyze risks in business processes, providing recommendations for improvement.
- Operations Managers: Manage day-to-day operations while identifying and mitigating risks to ensure smooth functioning.
- Compliance Officers: Ensure the organization adheres to regulations and standards by managing compliance-related risks.
- IT Managers: Address risks related to information technology, ensuring data security and system
