What is Management of Risk (M_o_R®) Practitioner training including exam voucher

Every organization wants to use as many opportunities as possible. Implement projects, programs and jobs more effectively. The greatest possible result comes out of the investment you put in.

Within your organization the various ways that opportunities and threats may arise are being examined. We can put opportunities and threats together under the heading 'Risk'. As we look at various ways to the risks, you can say that your risk management is not optimal.

Management of Risk describes an integrated approach to risk management for the entire organization. This allows you to involve everyone in risk management within your organization and you take care for a structure that invites success.

The method Management of Risk from Axelos is a model for integrated risk management which can further help you in setting up risk management.

This training includes a voucher for the official, internationally recognized exam and one online-resit in case you do not pass the exam the first time.

The costs of the exam voucher are included in the price of the training. Shortly after the start of the training you will receive a voucher with which you can reserve your exam.

Bear in mind that you must plan your exam at least 5 working days in advance.
