Dayparts	4
Price	€1.400,00 excl. VAT No extra costs.

### What is IREB Foundation Exam training

You are working in the field of requirements, and you want to demonstrate your skills with an internationally recognized certificate. Then the IREB Foundation Exam training is a good choice to help you achieve the international certificate of the International Requirements Engineering Board, the IREB Foundation exam (CPRE-F). This exam can be done in both Dutch and English. This exam training will prepare you for the first level of certification, namely Foundation. Being well prepared is very important for this training. Homework is a part of the preparation, and it is necessary to get the maximum result from this training. The exam is NOT included in the training. If you want to do the exam, book it via ISQI ([https://isqi.org/en/16-requirements-engineering?SubmitCurrency=1&id\\_curr...](https://isqi.org/en/16-requirements-engineering?SubmitCurrency=1&id_curr...)).

### Who should attend IREB Foundation Exam training

- Requirements Engineers: Professionals responsible for gathering, analysing, and documenting requirements.
- Business Analysts: Individuals who bridge the gap between IT and business, ensuring that requirements meet business needs.
- Product Owners: Individuals responsible for defining product features and ensuring they meet customer needs.
- System Analysts: Professionals analysing and designing IT systems to meet business requirements.
- Consultants: Advisors providing expert advice on requirements engineering processes and best practices.
- Developers: Software developers who need to understand requirements to build effective solutions.

### Prerequisites

Participants are expected to have a good understanding of requirements analysis. Several years of

experience in a business environment is essential.

## Objectives

At the end of the training you will be able to:

- Understand the fundamentals of requirements engineering.
- Apply best practices in requirements elicitation and documentation.
- Analyse and validate requirements effectively.
- Prepare thoroughly for the IREB Foundation exam (CPRE-F).
- Utilize practical insights and real-world examples in your work.
