What is ISTQB Advanced Test Analyst training including exam voucher

The ISTQB Advanced Level certification is aimed at people who have extensive experience in the testing field. The course is taught by a certified coach of Sogeti, who also possesses extensive experience in testing. Test Analysts are faced increasingly with tests that cross national boundaries. Many organizations operate in an international environment. During the training ISTQB® Advanced Test Analyst you will meet the globally recognized framework ISTQB®. This framework gives insight into the specification and implementation of for example system tests and acceptance tests in such an international environment.

During this training you consider various techniques to design your tests and you will meet an international conceptual framework. In addition, the emphasis is on testing knowledge for specific industries. You will be shown the necessary tools during the course such as spreadsheets, templates and utilities. This way you will be able to effectively and efficiently test your designs. During this training you deepen your test knowledge with ISTQB®. Moreover, you prepare for the ISTQB® Advanced Test Analyst exam.

During this training various ways of interaction, such as, presentations, exercises, game features, competitions and individual puzzles are used. In this way you master designing tests according ISTQB® Advanced in an interactive and interesting way.

The training will include the following topics:

- Testing Process
- Test management from the perspective of the test analyst
- Specification based test techniques:

Equivalence partitioning

Boundary value analysis

Decision table

Cause effect Graphing State transition

Combinatorial testing techniques, Domain analysis and use case and user story testing

- Defect and experience based test techniques
- Testing of software characteristics
- Defect Management

Given the international nature of the training, both the training material and the exam in English. The trainers speak Dutch and have extensive experience in the field of testing. They are able to combine the theory in the field of ISTQB® with practical examples and will gladly answer your questions about your own test and practice tests using test tools.

This training includes a voucher for the official, internationally recognized exam.

The costs of the exam voucher are included in the price of the training. Shortly after the start of the training you will receive a voucher with which you can reserve your exam.

You can make a reservation for one of our exam days or book an online exam at a time and place of your choice. Bear in mind that you must plan your exam at least 5 working days in advance.
