

# Data Warehouse Concepts

## Group Training

Training code	CGADSDWCCD
Spoken Language	Dutch
Language Materials	Dutch
Dayparts	2
Price	€545,00 excl. VAT No extra costs.

## What is Data Warehouse Concepts

The difference between a standard database and a data warehouse lies primarily in the complex system that lies behind it. A data warehouse must be able to answer questions in a relatively short time without getting overloaded.

In this training the following topics are addressed:

- DW concepts
- DW Modeling
- DW and the DBMS
- DW and BI Tools
- DW and Metadata and QM
- DW project approach
- What is the added value of DW
- Topology, tools and infrastructure

In addition, there various trends and developments are explained so that the participants are up-to-date with DWC.

## Who should attend Data Warehouse Concepts

You are new to the field of business intelligence and want to know what Data Warehouse Concepts are and what you can do with it.

You are for example:

A Young Professional in an IT organization

- Just started in a new role in a BI department
- An IT professional reskilling to be a business intelligence professional

## Prerequisites

There are no specific requirements to participate in this training.

## Objectives

After this training, the participant is able to answer the following questions:

- What concepts are there for Datawarehouses?
- What tools and approaches are there for Datawarehousing?

What is the added value of DataWarehousing?
