What is Professional Scrum Master – Advanced PSM II

Professional Scrum Master II™ (PSM II) course is a 2-day advanced Scrum Master class designed to support Scrum Masters in their professional development. The PSM II course is intended for Scrum Masters with at least one year of experience who are looking to grow their knowledge and abilities as a Scrum Master. This course is one step in that journey. The course also includes a free attempt at the globally recognized Professional Scrum Master II (PSM II) certification exam.

Unlike the Professional Scrum Master (PSM) course which focuses on how to use Scrum, the Scrum framework and the role of the Scrum Master, PSM II is an advanced course helping students to understand the stances that characterize an effective Scrum Master and servant-leader while diving deep into how they serve the Development Team, Product Owner and organization. The course then teaches students about related practices and skills to enable them to have the right types of conversations and how to apply them to become better Scrum Masters.

The cost of the exam is included in the cost of the training.

Who should attend Professional Scrum Master – Advanced PSM II

People with at least one year of experience in the Scrum Master role, looking to expand their skills and knowledge on their ongoing journey to best help teams and are in possession of the PMS I certificate. The training material and the PSM II assessment are in English and also the training is provided in English. At the end of the training:

- The participant has acquired a number of powerful techniques to facilitate and enable continuous improvement.
- The participant understands what personal competencies he / she needs for to do this and how a group

academy

can be shaped into a team.

- The participant has knowledge and techniques to handle in complex situations like in the case of multiple teams or dysfunctions in a team.

In addition, the participant is prepared for the PSM II exam.

Prerequisites

PSM 1 exam passed and at least 12 months of Scrum Master practical experience.

Objectives

Scrum Masters have a responsibility to have the Scrum Team constantly improve itself by showing servant leadership. This training enables Scrum Masters to do that with practical and powerful techniques.

At the end of the training:

- The participant has a number of powerful techniques to facilitate and facilitate continuous improvement.
- The participant understands which own competencies he / she is needed for this and how a group can be formed into a team.
- Has the participant knowledge and techniques to act in complex situations such as in the case of multiple teams or dysfunctions in a team.
- In addition, the participant is prepared for the PSM2 exam.
