What is Robotic Process Automation Foundation

Tired of doing the same process over and over again? Want to really change your workplace? Take the 'digital transformation' into your own hands and join the RPA Awareness! In just two days, move from the will to change to actively changing your environment. From organizational perspectives to technical implementations, this training covers it all.

In this training, you will learn:

- What is RPA?
- How to incorporate RPA in your own context?
- Use cases
- Lean
- First automation success
- Experience from experts
- Food for thought for change management

Who should attend Robotic Process Automation Foundation

- Business Analysts: Understand how RPA can streamline business processes and improve efficiency.
- Software developers: Learn how to build RPA solutions.
- Managers: Understand how RPA can automate manual tasks.
- Software testers: Discover how RPA can help automate testing.

Prerequisites

No prior experience with RPA is required. A basic understanding of business processes and a willingness to embrace digital transformation are beneficial.

Objectives

At the end of the training you will be able to:

- Define Robotic Process Automation (RPA) and its benefits.
- Identify opportunities for RPA within your organization.
- Apply RPA tools to automate simple tasks.
- Analyze use cases to understand the practical applications of RPA.
- Implement your first RPA project successfully.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
