What is CCSP - Certified Cloud Security Professional

CCSP (Certified Cloud Security Professional) is the standard in Cloud Security certification of (ISC) 2 and the Cloud Security Alliance. Spread over six domains, topics such as cloud architecture, the impact on risk management, business continuity, identity management and legal / compliance are dealt with. Important topics such as cloud environments in IT (Security) Audits and gaining hands-on experience in Cloud Security implementations, however, remain underexposed in CCSP. Only in this master class will you follow CCSP in combination with two included evening sessions based on the Cloud Security, Audit & Compliance training in which precisely these themes are explored.

Who should attend CCSP - Certified Cloud Security Professional

This training is suitable for everyone who works in a role such as:

- Security professional
- IT (Security) Auditor,
- Virtualization or Cloud administrator,
- Risk Managers

and anyone else involved in the security or implementation of cloud solutions

Prerequisites

At least five years of IT experience, of which three in information security / IT Security and at least one year in one or more of the CCSP domains

Objectives

In the CCSP / CSAC training you will among other things:

Learn to view and understand Cloud Security and risks from different perspectives;

Assess and implement the required security controls in cloud environments that ensure confidentiality, integrity and availability;

Gain hands-on experience in a Cloud Security implementation using products that are widely used in the market for that purpose;

Learn which parts of a cloud environment are audited and how this process works;

Learn to use methods to effectively incorporate a Cloud environment in an IT (Security) Audit;

Discover how to handle compliance and assurance in the Cloud;

Learning to perform risk assessments on existing and potential Cloud environments;

Design Service Level Agreements (SLA) for Cloud environments;

Be prepared for the CCSP exam by (ISC)2

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
