Agile in a day

Group Training

Training code	CGAAGIIDCE
Spoken Language	English
Language Materials	Dutch
Dayparts	2
Price	€500,00 excl. VAT No extra costs.

What is Agile in a day

In one day we give you an overview of Agile in its full breadth. We start with the history of Lean, the New New Product Development Game research, the Agile Manifesto and its 12 principles and the agile application areas.

Then it is time to experience the agile way of working in a simulation game.

Then we pay attention to agile frameworks such as Scrum and SAFe and we play a Kanban game. We conclude with an overview of DevOps.

Who should attend Agile in a day

This training is valuable for anyone who wants to gain a good insight into Lean, Agile, Scrum, SAFe, Kanban and DevOps and their mutual cohesion in one day.

Because the training is broad and we do not go into depth, the training is especially interesting if you are still "blank" on these topics

Objectives

Gain insight into

- Lean,
- the New New Product Development Game research,
- the Agile Manifesto and its 12 principles
- and the agile application areas.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
