What is BCS International diploma in Business Analysis Exam Preparation

This exam training equips you with the knowledge and tools to obtain the BCS International Diploma in Business Analysis. It includes a practical assignment and practice exam questions. The training begins with an overview of the BCS certification scheme and the place of this diploma within it. It is necessary that you have passed the BCS Business Analysis Practice, and BCS Requirements Engineering exams. It is also necessary to have passed an exam on foundation level (like BCS Business Analysis Foundation) and a third exam on professional level (like BCS Modelling Business Processes). Expect about 24 hours of self-study before this training. This tutorial revisits the content associated with the above four exams and includes a special processing assignment aimed at the BCS International Diploma in Business Analysis. The actual exam can be booked separately.

Who should attend BCS International diploma in Business Analysis Exam Preparation

- Business Analysts: Enhance your skills and understanding of business analysis.
- Product Owners: Learn how to better define product requirements and work with development teams.
- Process Designers: Learn how to model business processes effectively.
