What is Business drawing - Cartoons and Sketchnotes

Zakelijk tekenen - Cartoons en Sketchnotes is a group workshop that introduces the basics of visual annotation during sessions, pitches, and meetings. This training is designed for direct application on your notebook, tablet, flipcharts, and whiteboards. Learn to analyze and structure concepts, processes, or tasks visually. Images can often convey information faster and more accurately than text. Quick sketches, like doodles during a phone call or meeting, help our brains organize, understand, and remember complex information. Visual communication is also universal; a picture of an object is understood regardless of language. Whether brainstorming, managing change processes, identifying new challenges, or inspiring colleagues or customers, the ability to create clear images is invaluable. Visualizing your ideas clarifies them for others and yourself, sparking discussion and new insights. Discover and harness the power of visual thinking with this course, which provides the first steps towards enhancing your visual skills.

Who should attend Business drawing - Cartoons and Sketchnotes

- Business Analysts: Enhance your ability to visualize data and processes for better analysis and presentation.
- Project Managers: Improve your skills in visualizing project plans and progress to communicate effectively with your team.
