Dayparts	4
Price	€1.500,00 excl. VAT No extra costs.

What is Professional Scrum with Kanban

Based on the DevOps trend, Scrum is increasingly being used by teams that are (partly) responsible for handling operational activities.

These activities are often characterized by the unpredictable moment at which they present themselves, combined with a high degree of urgency. Applying Kanban in combination with Scrum can help these teams well.

In this two-day Professional Scrum with Kanban training you learn how to apply Kanban within the Scrum framework. This training is an official training from Scrum.org.

After the training you can do the globally recognized Professional Scrum with Kanban (PSK) assessment from Scrum.org online at a time and place of your choice.

The costs of the exam are included in the costs for the training.

Who should attend Professional Scrum with Kanban

This training is primarily intended for all Scrum roles: Product Owners, Scrum Masters and Development Team Members.

In addition, this training is for everyone who wants to:

- get a good understanding of how flow works in the context of Scrum
- become acquainted with Kanban practices that Scrum Teams can use to increase their efficiency and effectiveness
- understand how you can use the correct Kanban practices effectively, without having to adjust Scrum
- learn A practical approach to improve transparency and visibility of your work
