

Microsoft Azure Architect Design (AZ-301)

Partner Training

Training code	FSLAZ301CE
Spoken Language	Dutch
Language Materials	English
Dayparts	6
Price	€1.695,00 excl. VAT No extra costs.

What is Microsoft Azure Architect Design (AZ-301)

This training covers:

- Managing Security & Identity for Azure Solutions
- Integrating SaaS Services Available on the Azure Platform
- Backing Azure Solutions with Azure Storage
- Comparing Database Options in Azure
- Monitoring & Automating Azure Solutions
- Deploying Resources with Azure Resource Manager
- Creating Managed Server Applications in Azure
- Authoring Serverless Applications in Azure
- Application Architecture Patterns in Azure
- Building Azure IaaS-Based Server Applications (ADSK)
- Networking Azure Application Components
- Integrating Azure Solution Components Using Messaging Services

This course is aligned to Azure Exam:AZ-301, Azure Solutions Architect-Design and contains the following:

- AZ-301T01: Designing for Identity and Security
- N6AZ-301T02: Designing a Data Platform Solution
- AZ-301T03: Design for Deployment, Migration, and Integration
- AZ-301T04: Designing an Infrastructure Strategy

Who should attend Microsoft Azure Architect Design (AZ-301)

Successful Cloud Solutions Architects begin this role with practical experience with operating systems, virtualization, cloud infrastructure, storage structures, billing, and networking.

Prerequisites

Successful Cloud Solutions Architects begin this role with practical experience with operating systems, virtualization, cloud infrastructure, storage structures, billing, and networking.

Objectives

After completing this course, students will be able to:

- Integrate their existing solutions with external identity providers using Azure AD B2B or B2C
- Design a hybrid identity solution
- Determine when to use advanced features of Azure AD such as Managed Service Identity, MFA and Privileged Identity Management
- Secure application secrets using Key Vault
- Secure application data using SQL Database and Azure Storage features
- Detail the various APIs available in Cognitive Services
- Identify when to use the Face API, Speech API or Language Understanding (LUIS) service
- Describe the relationship to Bot Framework and Azure Bot Services
- Determine the ideal pricing option for Azure Storage based on a solution's requirements
- Identify performance thresholds for the Azure Storage service
- Determine the type of Storage blobs to use for specific solution components
- Use the Azure Files service for SMB operations
- Identify solutions that could benefit from the use of StorSimple physical or virtual devices
- Compare and contrast monitoring services for applications, the Azure platform, and networking
- Design an alert scheme for a solution hosted in Azure
- Select the appropriate backup option for infrastructure and data hosted in Azure.
- Automate the deployment of future resources for backup recovery or scaling purposes
- Create a resource group
- Add resources to a resource group
- Deploy an ARM template to a resource group Integrate an API or Logic App with the API Management service
- Design an App Service Plan or multi-region deployment for high performance and scale
- Integrate an API or Logic App with the API Management service
- Design an App Service Plan or multi-region deployment for high performance and scale.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.

Capgemini Academy. We transform IT professionals
