What is Agile Product Management based on SAFe including exam voucher

Design Thinking, Data Driven Market Research, Innovation Games, Market Segmentation, Personas, Product Strategy & Vision, Journey Mapping, Roadmaps, Value, costing & pricing: today they are indispensable techniques for everyone involved in product development. And in the three-day training in workshop format Agile Product Management, they will all be discussed. And more!

So if you are a Product Manager, Product Owner, Business Analyst or if you have a role in Marketing, this training will keep you up to date.

Not only theoretical, but also practical, because this training is set up around a realistic case with many exercises.

Do you want to know more about this course? Download the brochure and the list of topics via this page: <https://academy.capgemini.nl/en/topic/scaled-agile-framework-safe>. There you will also find an overview of all the other SAFe courses that we offer.

Who should attend Agile Product Management based on SAFe including exam voucher

This training is primarily intended for:

- Product Managers and directors of Product Management
- Product marketing managers, project managers, Product Owners
- VP of Product Management, Business Owners, Business Analysts
- User experience and customer experience professionals
- Product leaders collaborating with Product Management, architects, subject matter experts, and

business line managers

This course is the official SAFe course and is delivered by certified trainers. The SAFe Agile Product Manager (APM) certification exam is included in the course. The cost of the exam is part of the course price. You will take this online exam at a time and place of your own choice, but within 30 days of the course. In the Scaled Agile online learning environment, you will have access to an e-learning prior to attending the course and to the digital workbook that accompanies the course. You can also use this environment to take a practice test (mock exam). Included in the course is a one-year membership of the SAFe Community Platform. This platform gives you access to videos, discussion forums, toolkits and templates. This course is based on the most recent version of SAFe.

Prerequisites

This course requires prior knowledge of agile principles and practices in general and SAFe basics in particular. A background as product owner or in product management is highly recommended.
