Dayparts	4
Price	€1.200,00 excl. VAT No extra costs.

What is EXIN Blockchain Foundation including exam voucher

The term blockchain means that most people immediately think of Bitcoin. But Bitcoin is just an example of the application of the Blockchain technology. This technology is much more widely applicable and that is also apparent when we see how many companies are now using block chain technology in one way or another to achieve their business objectives better and, above all, more safely.

In this course we introduce you to this technology in a non-technical way. We not only explain it, but also let you experience it through a business simulation that gradually lets you experience more deeply what that technology can mean and how you can deal with it.

Who should attend EXIN Blockchain Foundation including exam voucher

This certification is tailored to professionals in both business and IT who have, or aim to have, a professional role in blockchain as a cryptographic and smart contract solution.

Prerequisites

None
