What is AI Academy - Business Functional

The Business functional course is a course for business audience and covers the application of various AI/ML techniques. The use-case driven course enables the individual to identify, frame and develop solutions to key business problems AI can solve.

This course covers concepts around various Machine Learning, Deep Learning and NLP techniques from a business point of view and not a technical implementation point of view.

The course aims at developing competencies and skills which helps in spotting AI opportunities, integrating AI into the overall business strategy and preparing an implementation plan

The course provides a detailed explanation of the entire AI life cycle (right from data ingestion -> data storage -> data transformation -> model building to deployment in production)

Who should attend AI Academy - Business Functional

Candidates who are from a non-technical background who want to learn about AI

Candidates who are going to lead AI projects

Prerequisites

None

Objectives

Participant will be able to:

- Analyze various sector specific use cases that can be implemented in his/her organization.
- Analyze various techniques and tools that are needed for AI model building and deployment
- Articulate and scope real world AI & Machine learning problems
- Lead an AI project; prepare project proposals and draw up estimates (both in terms of money & time)

for the projects

- Explain the functioning of the various Cloud based AI platforms like Azure ML, AWS and GCP.
- Tackle challenges with respect to data, technique & technology that are encountered at various stages of AI lifecycle

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.

Capgemini Academy. We transform IT professionals
