

DEMO-4 upgrade

Group Training

Training code	CGADEM4UCD
Spoken Language	Dutch
Language Materials	English
Dayparts	6
Price	€1.800,00 excl. VAT No extra costs.

What is DEMO-4 Upgrade

DEMO (Design and Engineering Methodology for Organisations) offers a unique and indispensable frame of mind at a time when AI and Machine Learning are increasingly defining parts of decision-making processes in ever larger and opaque networks. As a result, people's responsibility is diluted and curtailed, and citizens, entrepreneurs and customers get completely lost.

Demo-4 was released in April 2020, based on the new DEMO book by Jan Dietz and Hans Mulder: Enterprise Ontology - A Human-Centric Approach to Understanding the Essence of Organisation. Much sharper and more grounded, with 6 detailed educational cases, 8 practical cases with the advantages gained in them, and the connection with 5 other approaches such as Agile and Lean Six Sigma.

Also, the training design has changed, problem-driven and with much more emphasis on practice; everyday, from day 1, you will be working on your own case with the breadth of all aspect models, deepening them in a spiral way.

The DEMO-4 upgrade training starts with a brief refresh of the theory and a summary of what's new in DEMO-4. Then we walk through all the models and help you to make that (again) your own with some exercises. Because of the problem-driven approach, you can immediately use this training to get more clarity and guidance on a case from your own work environment. In between the plenary training sessions, you will elaborate your own case in a small team. In addition, you will receive 2 * ½ hour of personal coaching by a DEMO Lecturer on your own case. With this own case you will also be prepared for your (oral) exam DEMO-4 Professional, which you can take within a few weeks if desired.

The DEMO-4 Professional exam is not included in this training. If you want to book the exam, do so through the Enterprise Engineering institute (EEi).).

Who should attend DEMO-4 Upgrade

For anyone who has followed the DEMO-3 Bachelor or -Master or DEMO-2 Professional training.

Prerequisites

You have previously completed the DEMO-3 Bachelor or -Master or DEMO-2 Professional training. You don't need to have completed this by passing an exam.

In addition to 3 contact days, keep in mind the 3 homework days - in a part of which you will collaborate with your own team. For your personal coaching of 2 * ½ hour, your trainer will make an appointment with you during the training.

Objectives

At the end of this course:

- Has your knowledge about DEMO been refreshed;
- Are you familiar with the recent changes to DEMO-4;
- Can you independently draw up a complete DEMO model, in all 4 aspect models, of your own case study;
- Are you ready to take DEMO-4 Professional exam.
