

DEMO-4 Professional

Group Training

Training code	CGADEMO4CD
Spoken Language	Dutch
Language Materials	English
Dayparts	8
Price	€2.700,00 excl. VAT No extra costs.

What is DEMO-4 Professional

DEMO (Design and Engineering Methodology for Organisations) offers a unique and indispensable frame of mind at a time when AI and Machine Learning are increasingly defining parts of decision-making processes in ever larger and opaque networks. As a result, people's responsibility is diluted and curtailed, and citizens, entrepreneurs and customers get completely lost.

DEMO is the leading methodology in the field of Enterprise Engineering (EE), in which an organization is primarily regarded as a purposefully designed system. Changing an organization therefore means redesigning and redesigning it. Only in this way can unity and cohesion be obtained and maintained. The DEMO-4 Professional training trains you in depth in your profession and provides a solid methodological foundation for this.

The training design is problem-driven with a lot of emphasis on practice; everyday, from day 1, you work on your own case, which you work out in all 4 DEMO models iteratively and spirally deepen. The problem-driven approach allows you to use this training to gain more clarity and guidance on a case from your own work environment. In addition, you will receive 1 hour of personal coaching by a DEMO Lecturer on your own case. With this personal case you will also be prepared for your (oral) exam DEMO-4 Professional, which you can take within a few weeks if desired.

Who should attend DEMO-4 Professional

The DEMO-4 Professional training is intended for professionals in the field of organisation and ICT, who want to be more in-depth trained in their profession, and who in particular are looking for a solid methodological foundation of this.

For example, you are working as:

- Enterprise or business architect,
- Business- or information analyst,
- Solution architect

- Product Owner,
- Information Manager,
- Process Manager,
- Quality Manager

Prerequisites

There are no admission requirements for a training DEMO-4 Professional. Anyone with common sense and an open mind (and some experience with organizational change) is able to follow the training successfully. In addition to 4 contact days, keep in mind there are also 4 homework days.

Objectives

At the end of this course:

- Are you familiar with the Enterprise Engineering discipline;
- Can you create a DEMO Collaboration, Process, Fact and Action Model of a well-defined casestudy;
- Can you use Organisational Essence Revelation (OER) as an app approach to creating these models;
- Do you have insight into the positioning of DEMO in relation to other methods and approaches, such as Agile, Lean, Six Sigma, BPMN, Archimate, NIAM, ORM, etc;
- Are you ready to take DEMO-4 Professional exam.

The DEMO-4 Professional exam is not included in this training. If you want to book the exam, do so through the Enterprise Engineering institute (EEi).
