What is Universeel Service Management (USM) Beyond ITIL

USM training emphasizes the process design of the service organization and its routines.

After all, processes are the shortest and most efficient way to customer-relevant goals.

USM goes one step further and focuses entirely on the workflows that ultimately define how the work is organized. Organizations that strongly focus on hierarchical or project-based routines - or even have based their organizational structure on it - can thus gain a lot in effectiveness and efficiency.

Who should attend Universeel Service Management (USM) Beyond ITIL

Service organizations that want to get their organization in order can use USM, the Unified Service Management method. USM training deals with the management system of service providers. The participant learns to make practical choices with USM for managing his own organization. These choices are well-founded and easy to understand because they are based on a powerful service management architecture. This creates insight and tranquility in the organization, its management and its routines - which is a precondition for a structural improvement of the organization's performance.

Prerequisites

No specific prerequisites

Objectives

USM training emphasizes the process design of the service organization and its routines. After all, processes are the shortest and most efficient way to customer-relevant goals.

USM goes one step further and focuses entirely on the workflows that ultimately define how the work is organized. Organizations that strongly focus on hierarchical or project-based routines - or even have based their organizational structure on it - can thus gain a lot in effectiveness and efficiency. About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
