What is TMap upgrade for high-performance IT delivery

In today's IT world cross-functional teams are expected to deliver business value with the right quality at speed. TMAP® supports this new way of working towards built-in quality which goes beyond just testing

Who should attend TMap upgrade for high-performance IT delivery

This training course is for people working in high-performance IT delivery teams (such as DevOps and Scrum) that already have knowledge on quality engineering at the level of a TMap Suite certificate. This training course is aimed at people that have a working knowledge of and experience with quality engineering and TMAP®, and preferably hold a TMAP certification.

Prerequisites

This training course is aimed at people that have a working knowledge of and experience with quality engineering and TMAP®,

Objectives

During this upgrade training course the participants (that already have knowledge on quality engineering at the level of a TMap Suite certificate) will get a practical overview of the following QA&testing subjects:

The VOICE model for achieving business value by IT delivery

- IT delivery models
- DevOps and continuous quality engineering
- The whole-team approach and relevance for Dev and Ops people
- QA & testing topics (both organizing and performing)

- Continuous everything and CI/CD pipeline
- Total cost of quality and test automation
- Indicators, reporting and alerting
- Quality measures and skills
- Test varieties
- Test design (experience-based testing and coverage-based test design techniques)

The participants will learn some theory and get experience in practical exercises. Furthermore, there will be ample time for sharing experiences amongst all participants.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
