Many organizations operate in an international environment, in which good communication is extra important. A clear conceptual framework within a test project is a precondition for this. The International Software Testing Qualifications Board (ISTQB®) provides this conceptual framework in the field of testing and shows you what and why about structured testing. ISTQB® is recognized worldwide.

This training is suitable for anyone with a test role who wants to delve further into test automation. This training is including a voucher for the online exam. The price of the exam is included in the training price. This training is delivered by Sogeti Academy.

#### **Prerequisites**

Required prior knowledge is ISTQB® Foundation.

#### Objectives

The following topics are covered during this training: The basis of test automation Preparing test automation Generic Test Automation Architecture (gTAA)

Deployment
Reporting and metrics
The transition from manual to automated testing
Verification of the Test Automation Solution (TAS)
Continuous improvement

## **About Capgemini Academy**

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
