### What is Jira Fundamentals

JIRA, a product of Atlassian, is an online development tool for Agile teams, with which you can identify issues and divide work in a clear way. This blended practical training teaches you the ins and outs of JIRA so that you can use it yourself afterwards. The training is a combination of e-learning as preparation and a group training in which you get started with a number of practical cases.

### Who should attend Jira Fundamentals

Anyone who works in an Agile work environment or for other reasons is interested in gaining knowledge of the JIRA development tool.

During this training you must have access to a laptop.

#### Prerequisites

Basic knowledge of working in Agile teams

#### Objectives

Get to know JIRA and learn to work with it

## About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.

Capgemini Academy. We transform IT professionals
