

Writing User Stories (EN)

Group Training

Training code	CGAWRUSTCE
Spoken Language	English
Language Materials	English
Dayparts	2
Price	€700,00 excl. VAT No extra costs.

What is Writing User Stories

If you're already working with requirements and are now transitioning to Agile and Scrum, you might be wondering how to adapt. User stories are used in Agile and Scrum projects to record requirements. This workshop will teach you how to work with user stories in your daily work and what changes this will bring. You will learn the central role of user stories in Agile environments, how to write and review user stories, and when to detail a user story to ensure clear and effective communication.

Who should attend Writing User Stories

- Product Owners: Who define the product vision and manage the product backlog.
- Business Analysts: Who translate business needs into technical requirements.
- Scrum Masters: Who facilitate the Scrum process and remove obstacles.
- Developers: Who implement the user stories.
- QA Engineers: Who ensure the implemented stories meet the acceptance criteria.

Prerequisites

Basic understanding of Agile and Scrum methodologies is required.

Objectives

At the end of the training, you will be able to:

- Write effective user stories that clearly communicate requirements.
- Split user stories into smaller stories without losing sight of quality.
