What is Pega Certified System Architect (PCSA)

This training provides an in-depth understanding of how to implement Intelligent Automation with case management using Pega's unified, low-code platform. You will learn how to perform the most common application development tasks using the App Studio and Dev Studio, preparing you for your first Pega development project.

Who should attend Pega Certified System Architect (PCSA)

- **Software Developers:** Gain a comprehensive understanding of Pega's low-code platform and enhance your ability to develop applications.
- **Business Analysts:** Understand the technical aspects of Pega to bridge the gap between business needs and technical solutions.
- **Project Managers:** Equip yourself with the knowledge of Pega's capabilities to better manage and guide your team.
- **Quality Analysts:** Learn about Pega's features to effectively test and ensure the quality of applications.
- **IT Professionals:** Expand your skill set and increase your value in the IT market with Pega knowledge.

Prerequisites

There are no prerequisites for this training.

Objectives

At the end of the training, you will be able to:

- Understand the core concepts and principles needed to start developing with Pega.
- Prepare for the PCSA exam in accordance with the latest version of Pega.
