What is TOGAF® Enterprise Architecture Practitioner

The TOGAF® Enterprise Architecture Practitioner training is designed to equip Enterprise Architecture teams with the necessary skills and knowledge to effectively improve and guide change within their organizations. The training focuses on key challenges such as developing and documenting enterprise architecture, ensuring implementation conformity to the architecture, and maintaining architecture as a continuous process. The TOGAF standard provides the common concepts, structure, and enduring best practices to help Enterprise Architects perform. This Practitioner training gives you insight into the operation and application of the framework and prepares you for the Practitioner exam.

Who should attend TOGAF® Enterprise Architecture Practitioner

- Enterprise Architects: Gain a deeper understanding of the TOGAF standard and learn how to apply it in your organization.
- Solution Architects: Learn how to document enterprise architecture and ensure that the implementation conforms to the architecture.
- IT Strategists: Understand how to ensure that architecture remains a continuous process within your organization.
- IT Consultants: Equip yourself with the knowledge and skills to guide your clients in selecting the most effective improvement and guiding the resulting change.
- IT Professionals: Gain the qualification required to obtain an Applied Practitioner Open Badge, after passing your Practitioner exam.

Prerequisites

academy

Participants should have a basic understanding of Enterprise Architecture and have completed the TOGAF®
Enterprise Architecture Foundation training.

Objectives

At the end of the training you will be able to:

- Deepen the knowledge and understanding of Enterprise Architecture gained in the Foundation
  training.
- Discuss the application in practice based on the TOGAF Standard, 10th Edition.
- Contribute within your organization by applying the TOGAF standard.
- Obtain an Applied Practitioner Open Badge, after passing your Practitioner exam.
- Understand the practical application of the TOGAF frameworks through examples given by the trainer.
