What is TOGAF® Enterprise Architecture Foundation

In the TOGAF® Enterprise Architecture Foundation training, you will gain knowledge and understanding of Enterprise Architecture based on the TOGAF® Standard 10th edition. The training provides you with the basic understanding of the TOGAF approach to Enterprise Architecture, the common TOGAF language and the required qualification to become a TOGAF Enterprise Architecture Practitioner. The training also includes practical examples of the TOGAF frameworks and encourages discussion about their application. Upon passing the exam, which you can schedule at your convenience, you will be certified and have a comprehensive understanding of the TOGAF standard.

Who should attend TOGAF® Enterprise Architecture Foundation

- Enterprise Architects: Gain a comprehensive understanding of TOGAF® and enhance your ability to develop and implement enterprise architecture.
- Solution Architects: Learn the TOGAF® approach to Enterprise Architecture and improve your solution design capabilities.
- IT Consultants: Expand your consulting portfolio with a TOGAF® certification and provide valuable advice to businesses on enterprise architecture.
- Program Managers: Understand the TOGAF® frameworks and manage programs more effectively by aligning them with business objectives.
- IT Developers: Learn about enterprise architecture and improve your ability to develop IT solutions that align with business goals.

Prerequisites

There are no prerequisites for this training. However, a basic understanding of enterprise architecture concepts will be beneficial.

Objectives

At the end of the training, you will be able to:

- Configure the method of developing Enterprise Architecture
- Document your enterprise architecture effectively
- Ensure that the implementation conforms to the architecture
- Ensure that architecture remains a continuous process
- Understand the common concepts, structure, and enduring best practices of the TOGAF standard
- Prepare for the Foundation exam
