What is Lean Six Sigma Orange Belt

During this LSS Orange Belt training you will learn the theory and practice it during exercises to solve non-complex problems in a structural manner. In general, we tend to solve problems quickly, but we do not check if the problem is really solved. This firefighting results in a quick restart of the process, but the problem often returns.

During this training you will learn how to really solve problems, make processes more Efficient and more effective. This will result in doing more with the same amount of people without working harder, by working smarter.

This training includes a voucher for the official, internationally recognized exam.

The costs of the exam voucher are included in the price of the training. Shortly after the start of the training you will receive a voucher with which you can reserve your exam.

Bear in mind that you must plan your exam at least 5 working days in advance.
