Dayparts	2
Price	€800,00 excl. VAT No extra costs.

What is Metadata Management

Metadata Management is a training that emphasizes the increasing importance of data. As data represents value, it's crucial to handle it with care. This training introduces you to metadata - data about data - and how to extract maximum value from it. You'll learn about different types of metadata such as Business Metadata, Technical Metadata, Operational Metadata, and how they come together in a Metadata Repository. We'll also discuss the concepts of Data Catalog, Horizontal lineage, and Vertical lineage. The training highlights how Metadata Management contributes to being in control of your data, higher Data Quality, and thorough impact analysis. The training is practical, challenging you to apply the theory in real-world cases. Our trainers, who are experienced practitioners in Metadata Management, are eager to share their knowledge.

Who should attend Metadata Management

- Data Analysts: Learn to understand and interpret metadata to derive insights.
- Data Stewards: Understand how to manage and govern metadata.
- Data Architects: Learn how metadata fits into the larger data architecture.
- IT Managers: Understand the importance of metadata in managing IT resources.
- Data Scientists: Use metadata to understand and prepare data for analysis.

Prerequisites

There are no specific requirements to participate in this training.
During this training you need a laptop.

Objectives

At the end of the training, you will be able to:

academy

- Identify different types of metadata.
- Understand how to relate different metadata to each other.
- Extract value from metadata.

This is the perfect training for anyone looking to enhance their understanding of metadata and how to manage it effectively.
