### What is Copilot for Customer Service

Copilot for Customer Service is an advanced tool that uses artificial intelligence to improve customer interactions. It includes chatbots that provide automated support, and it provides proactive insights, recommendations, and automation to support agents in delivering better service and increasing customer satisfaction.

With features such as conversation analytics, summaries, generative email composing features, predictive support, and task analysis, Microsoft Copilot streamlines the customer service process and improves team efficiency.

### Who should attend Copilot for Customer Service

The Copilot for Customer Service training is suitable for:

- Customer Service professionals
- Team Leaders Customer Care
- Administrators of Dynamics Customer Service
- Consultants in the field of Dynamics / Power Platform

### Prerequisites

There are no specific requirements to participate in this training.

## About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
