

**A book for
every learner | ...**

A Book for Every Learner

As of 1 of February 2022, the “**A Book for Every Learner**” initiative will come in effect and will include:

- The **Core Guidance eBook** will be **bundled with all AXELOS Exams**. That means that Candidates and Partners will be buying the Core Guidance eBook together with the Exam Voucher.
- **Hard Copy Books** will be available as an optional offering at an additional cost. Hard Copy Books cannot replace eBooks in the bundling process.
- PeopleCert will be the **single point of purchase** for both eBook and Hard Copy Book Core guidance.

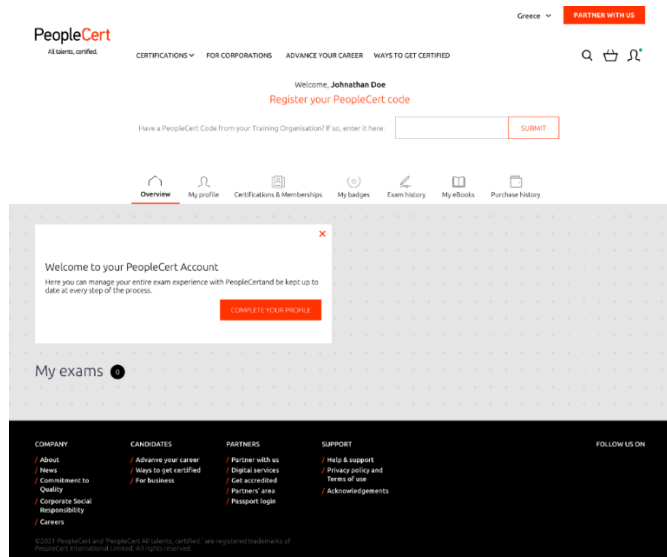

eBooks Ordering

Candidate's Journey:

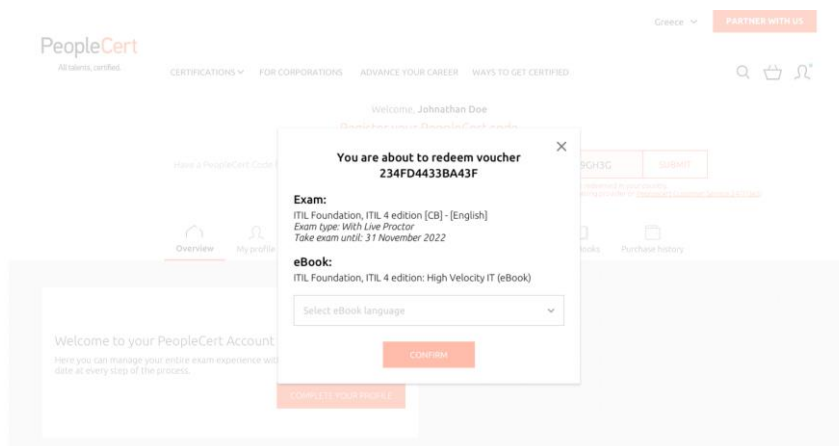

Redeem an exam and eBook voucher and gain access to your eBook

STEP 1

As soon as the candidate logs into their **PeopleCert Account** they will be presented with their **Welcome Screen**. In this screen, the candidate will have the option to navigate amongst several options but importantly, they will be able to **redeem the voucher they received from the partner by filling in the voucher code in the respective field**.

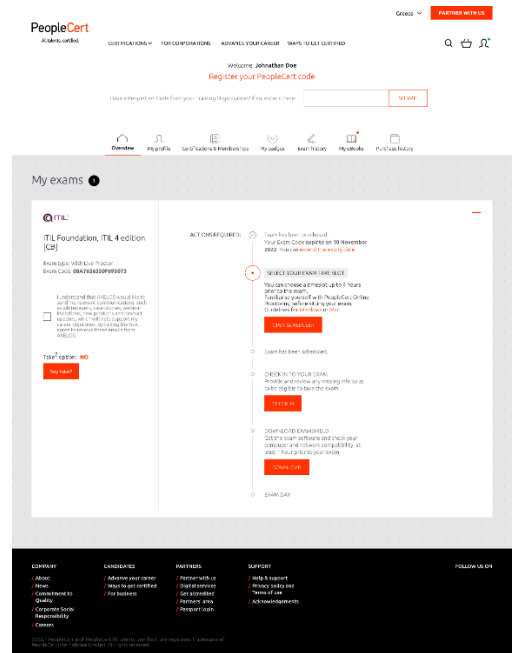

STEP 2

As soon as a Voucher is submitted, a **confirmation screen** will appear, verifying the action and **asking the candidates to choose the language of preference** for the ebook about to be purchased (if the test centre has not already pre-selected it during voucher order).

STEP 3

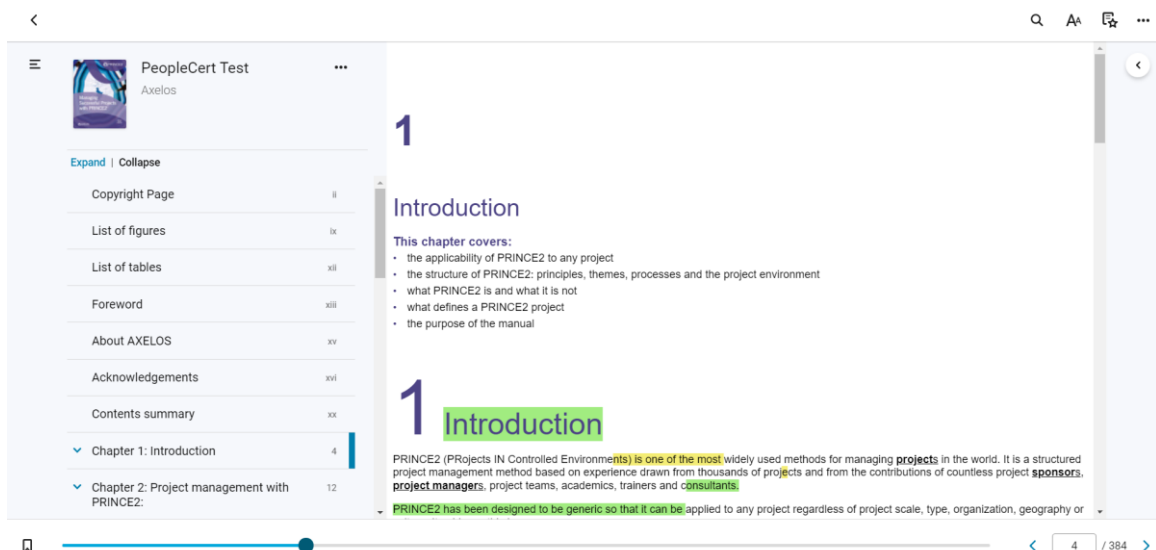

Upon **completion of the 'redeem process'**, the candidates are presented with a new screen with a notification red dot that will show that there is a **new eBook available** for them in their library. On this page, the candidates will have the option to proceed with scheduling their exam upon convenience.

STEP 4

In the **new My eBooks tab** the candidates are one click away from accessing their eBook in the PeopleCert branded VitalSource library for Online or Offline reading, notetaking, highlighting and many more functionalities in 37 languages, that support an effective learning experience.

Basic Interface

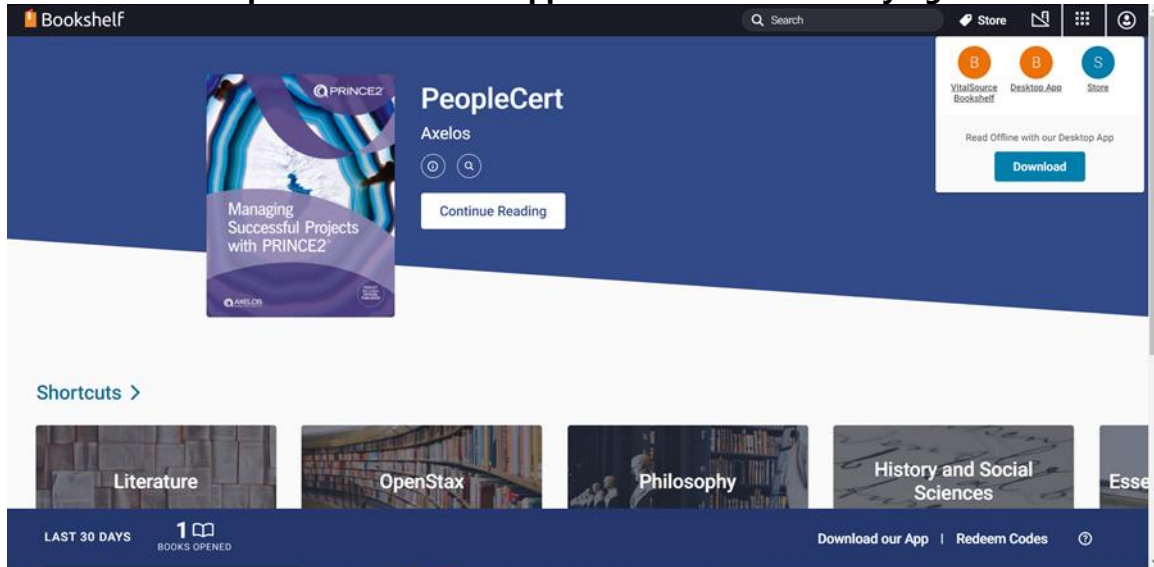

Highlights, Bookmarks & Annotations

The screenshot displays a digital reader interface. The main document is titled "Introduction" and contains text about the PRINCE2 project management method. Several words and phrases are highlighted in yellow, including "PRINCE2 (PRjects IN Controlled Environments)", "is one of the most", "widely used methods for managing projects", "in the world. It is a structured project management method based on experience drawn from thousands of projects and from the contributions of countless project sponsors, project managers, project teams, academics, trainers and consultants.", "PRINCE2 has been designed to be generic so that it can be applied to any project regardless of project scale, type, organization, geography or culture. It achieves this by:", "separating the management of project work from the specialist contributions, such as design or construction. The specialist aspects of any type of project are easily integrated with the PRINCE2 method and, used alongside PRINCE2, provide a secure overall framework for the project work", and "focusing on describing what needs to be done, rather than prescribing how everything is done." The sidebar on the right, titled "Workbook", has tabs for "Annotations", "Bookmarks", and "Flashcards". Under "Annotations", there is a section for "Highlights & Notes" with an "Export" button. It shows two entries for "Chapter 1: Introduction" dated 12/14/2021, with a page count of 4. The first entry is "Introduction" and the second is "nts) is one of the most" with a note "To remember!". At the bottom of the page, there is a progress bar and a page indicator showing "4 / 384".

37 languages available, including Japanese and Chinese

The screenshot shows the OpenStax Bookshelf app interface. At the top, there is a "Bookshelf" header and a search bar. A language selection menu is open, listing 37 languages: Magyar, Isvenska, Italiano, 日本語, 한국어, Nederlands, Norsk, Polski, Português do Brasil, Português, Română, Русский, Svensk, తెలుగు, Türkçe, Tiếng Việt, 中文简体, and 繁體中文. Below the menu, there are several "Shortcuts" for different subjects: Literature (Free access to 50+ classics from Shakespeare to Twain), OpenStax (Free access to high-quality, peer-reviewed eTextbooks across a range of), Philosophy (Free access to dozens of classics from Plato to Walden), and History and Social Sciences (Free access to a collection of key History & Social Science titles). At the bottom, there is a "LAST 30 DAYS" section showing "1 BOOKS OPENED" and a footer with "Download our App | Redeem Codes".
