What is Writing User Stories

You already work with requirements and are now confronted with Agile and Scrum. What now? User stories are used in Agile and Scrum projects to record requirements. How do you work with user stories in your daily work? What changes for you in this regard?

In this workshop you will learn the central role of user stories in Agile environments. You learn to write and review user stories and when to detail a user store, so that you continue to communicate clearly and at the right level of detail.

Who should attend Writing User Stories

This course is of interest if you work in Agile environments and:

- use user stories to document requirements;
- interview the business about user stories;
- assess user stories or;
- decide about use cases.

The course is intended for Requirements Specifiers, Business Analysts and Product Owners, but also, for example, Test professionals and Scrum masters.

Prerequisites

Knowledge of requirements and knowledge of Agile / SCRUM.

During this training you need a laptop.

Objectives

At the end of the training you will be able to write better user stories, to split user stories into smaller stories
