What is Business Analysis Essentials

Business analysis focuses on identifying business needs, opportunities and problems, in order to arrive at the right solutions. It could be about improving information systems, improving business processes and / or organizational improvements.

The Business Analysis Essentials training provides an overview of the field of business analysis and its place in waterfall, hybrid, and agile environments. Techniques for strategic analysis, process / scenario analysis, data analysis and more are covered. Also, stakeholders / personas, requirements and (monitoring) business value are discussed.

At the end of the training the participant is:

Familiar with the various tasks in business analysis

Familiar with the skills needed to work with the business

Able to investigate business problems or opportunities by:

- SWOT analysis
- Determination of the requirements approach
- Process analysis
- Data analysis
- Monitoring business value

Who should attend Business Analysis Essentials

This training is for functional managers, junior business analysts and others who want to develop business analysis skills.

During this training you need a laptop with access to internet.

Prerequisites

You have some experience with business analysis.

Objectives

At the end of the training, you will have a good idea of the breadth of the field of business analysis. You have experienced what it is like to work as a business analyst. You can choose how to proceed in your business analysis study, for example which certifications are of interest to you.
