What is Selenium Webdriver Cucumber

Selenium is one of the most popular test tools in the world. The possibilities are almost infinite. In this training, you will learn about all it's possibilities. Cucumber is the plugin that makes Selenium more readable, enabling you to script and execute clearer and easier test cases. In this training, you will learn by doing. So, do you want to learn to work with Selenium? Then this training is something for you!

Who should attend Selenium Webdriver Cucumber

- Software Testers: Enhance your testing skills with automated testing tools.
- QA Engineers: Learn to integrate Selenium Webdriver with Cucumber for more efficient testing.
- Developers: Gain insights into automated testing to improve code quality.
- Test Managers: Understand the capabilities of Selenium and Cucumber to better manage testing teams.
- Automation Engineers: Expand your toolkit with Selenium and Cucumber for more robust test automation.
- IT Professionals: Broaden your knowledge in automated testing to support development teams.
- Technical Leads: Equip your team with the skills needed for effective automated testing.
- Students: Prepare for a career in software testing with hands-on experience in Selenium and Cucumber.

Prerequisites

Basic knowledge of Java and software testing concepts is recommended. Familiarity with Selenium is a plus but not required.

Objectives

At the end of the training you will be able to:

- Write automated tests using Cucumber, Selenium Webdriver, and Java.
- Develop automated testing in an existing project with Selenium Webdriver and Java.
- Create clear and maintainable test scripts.
- Integrate Selenium tests with Cucumber for better readability and management.
- Apply best practices in automated testing to improve software quality.
