What is Web accessibility for designers

In the training Web accessibility for designers you learn to apply web accessibility in your daily work. Participants learn what accessibility means and what the consequences are of living with a disability. There are 78 success criteria for making web content accessible. The training takes a closer look at some of these success criteria and then you will work with them so that you learn to apply them to your daily work. The training is very interactive; as a participant you learn through practice. This means that what has been learned can be immediately applied in practice.

Program:

- Introduction to web accessibility
- Web accessibility benefits
- Experience what it's like to visit a website with a disability
- Web content accessibility guidelines (WCAG)
- How do you apply WCAG?
- Roles and responsibilities
- Tools & Tips
