What is Mendix Intermediate Developer Course

This course is ideal for professional developers who have launched their first app and want to do something more challenging. Participants build on their existing basic level platform experience to gain fluency and additional skill. They also acquire best practices around collaborating in larger teams, and add to their next level of knowledge of the Mendix platform.

The scope of this course includes how to constrain data, gain familiarity with our AtlasUI framework, perform functions with and without sign-in, and processing data sets with list functions.

The following topics are included in this course,

- Project roles and responsibilities
- Constraining data with Xpath
- Page design with AtlasUI
- Project Directory unfolded
- Structuring your project with Sub microflows
- Rules
- System members
- List operations
- Client notifications
- Multi-lingual front-end
- Anonymous users

Who should attend Mendix Intermediate Developer Course

Mendix proficiency path: Intermediate

Participants are typically professional developers with an IT background and prior app development experience.

- Developers
- Business Analysts
- Application Managers

Prerequisites

One month platform experience

- Mendix Rapid Developer Certification
- Rapid Developer Course completed

Recommended: 1-2 month experience with Mendix app development

During this training you need a laptop on which you can install software: Mendix Studio Pro.

Objectives

After this training you are a professional Developer with intermediate-level skills and knowledge, who can work under supervision on more complex, internally-facing apps.
