What is Introduction Big Data

Big Data is a collection of data that is huge in volume and grows exponentially over time. It is data of such a large size or complexity that traditional databases cannot efficiently store or process it. During the 'Introduction Big Data' training you will learn that there is still value to be gained from this data. You will learn the basic concepts and techniques of Big Data and how this fits within the data architecture. Various trends and developments will be discussed.

Who should attend Introduction Big Data

The Introduction Big Data training is suitable for:

- Starters at the beginning of their career
- People who make a career switch towards Big Data
- People who work in IT, especially in departments such as Data Management
- Data Engineers
- Business Analysts
- Information Analysts

Prerequisites

There are no specific requirements to participate in this training.
During this training you need a laptop with access to internet.
